1 plate with 6x main ingredient and 1 plate with 6x side dish Or

2 plates with 3x main ingredient and 3x side dishes each

Make sure that the main ingredient and the side dish do not touch.

Portions not included in the rating

1 display plate for the exhibition in the public exhibition area 1

promotion plate for VIPs and sponsors

Both plates must be handed in at the exhibition area.

7. Shopping cart

Basket 1 contains mandatory products that must be used.

The quantities of the mandatory products are calculated in such a way that slightly more than the required portions can be produced.

Mandatory products for the main ingredient:

Competition 1: 2-3 whole chickens (approx. 1.3 kg each) from LDC Nature & Respect

Evaluation round 2: approx. 3kg pork neck from MEGA Stuttgart

Scoring round 3: 2 kg carrots

Rating 4: Fish (still unknown)

Competition 5: 5 DryAged pork chops (400g each) from Herbpigs DerSchwarzwälder

Scoring round 6: 3 Tri Tip Steak from YourBeef

All the necessary ingredients for the side dishes are included in shopping basket 2 and 3. The teams are free to choose from these products for all courses and decide what to use.

The products may **not** be replaced or supplemented with own goods.

According to the rules, the main components of this basket do not have to be grilled and served as a whole or in one piece. The entire quantity of the basket does not have to be prepared and served.

The chilled basket 1+2 will be handed out on Saturday from 7:30 am.

The uncooled basket 3 will be handed out on Friday after the team manager meeting.

8. Plate

The plates for the blind jury and the exhibition will be provided by the GBA. They will be handed out on Friday after the team manager meeting.

Presumably round, white plates Ø 27 cm are used. Each team receives 4 plates per course.

The plates must be transported **covered** in a box or similar. **This transport container MUST be brought by the team itself.**

9. Security

The organizer accepts no liability for damage or theft.

The event site is located on the grounds of Messe Stuttgart and is not open to the public. Access to the grounds is via the main guardhouse at Gate 1, which is manned 24 hours a day.

Visitors are not permitted during set-up and dismantling. Children under the age of 16 are not permitted in the set-up and dismantling areas.

On Friday, the pitch must be completely vacated by 23:00. No team members are allowed to spend the night in the team square.

The opening hours for teams and their members are Saturday from 06:00 to 22:30 and Sunday from 06:00 to 22:30.

Visitor opening times will be announced later.

The following points must be observed by the barbecue team:

Each team must bring a suitable, approved and tested **fire extinguisher** (at least 3 kg) and a fire blanket.

Each team must bring a **first aid kit**.

All gas barbecues must be equipped with a **two-stage safety gas pressure reducer** with thermal shut-off device and overpressure protection, as well as a **hose rupture safety device (SBS)**.

The connected gas cylinders are sealed on Saturday morning. It is possible to connect several cylinders in series. Gas cylinders may not be changed during visitor opening hours. Gas cylinders can be changed on Sunday morning before the opening hours for visitors.

When using charcoal barbecues, a **bucket** filled with water (**at least 10 liters**) must be within reach for emergency extinguishing.

A non-flammable, portable, closed container must be available for transporting the glowing coals.

10. Media

All teams and their members assign all rights to images, words and sound for publications in print and AV media (radio, television and internet) to the GBA. We ask all teams to register and accredit confirmed media companions with the GBA. Requests should be sent to presse@gbaev.de.

11. Team sponsorship

Team sponsorship and refinancing by sponsors is generally possible. However, brand and product advertising in the team's competition check is limited.

Team clothing: The logos of the team sponsors on the team clothing may not exceed an added total area of up to 20 cm x 20 cm per item of clothing.

Brand and product advertising on pavilions and tents are subject to approval by the GBA.

Displays, posters, banners with brand and product advertising, product presentations or promotions are subject to a charge.

These advertising measures must be registered with the GBA at least four weeks before the competition. Advertising measures must be paid in due time after the GBA has issued an invoice. Unpaid advertising measures will not be permitted and must be removed or covered.

12. Presentation and GEMA

The sale of goods is not permitted. If a team offers music, the team must register this with GEMA on its own responsibility. If music is played on the exhibition stand, permission must be obtained from the Gesellschaft für musikalische Aufführungs- und mechanische Vervielfältigungsrechte (GEMA) in accordance with § 15 of the Copyright Act of September 9, 1965.

For reasons of fairness, music performances or similar should not interfere with neighboring stands.

13. Overnight stays

You must arrange your own accommodation. We recommend reserving rooms well in advance. Overnight accommodation in caravans and mobile homes directly at the competition site is possible to a limited extent. No tent pitching possible! A maximum of 2 pitches are available per team. One 230 V, 3 KW power connection will be provided per pitch. This must be marked with the team name as at the competition site.

No overnight stay in the Teamkarree possible!

Both the overnight accommodation at the competition site and the electricity are subject to a charge. The amount of the costs will be determined shortly.

14. Grill and barbecue appliances & equipment

Barbecue and barbecue equipment can be selected in accordance with the applicable WBQA regulations and must be provided by the barbecue team. Equipment such as tables, benches and tents must also be brought by the team. Teams who are unable to bring their own equipment can be provided with the following:

-Listed separately

15. Event site

The substrate is level and consists of drainage asphalt and paved areas.

Do not drill into the asphalt or other subsoil, as pipes are laid close to the ground. If these are damaged, the person responsible will bear the costs.

Asphalt surfaces must always be protected from heat.

Garbage, hot ashes etc. must be disposed of in the containers provided for teams and exhibitors. (For transport containers see point 9 Safety)

Please DO NOT dispose of hot ash in the containers for residual waste

The waste containers set up in the event area are intended exclusively for visitors.

The site must be left in a swept clean condition after dismantling and will be inspected by a site manager. The liability of the barbecue team for damage to fixtures or the site remains unaffected.

16. Competition check

Competition diamonds measuring 10m x 10m are available. **No** larger space can be provided for complex set-ups. The team itself must cordon off the competition area against visitors and unauthorized persons.

For areas for which a weather protection, e.g. pavilion, must be set up, the teams must take measures to protect against wind; each team must provide suitable and sufficient safeguards and fastenings. This also applies to other objects, e.g. superstructures

NO ANCHORING IN THE GROUND

Attention! Screwing into the ground is not possible. The tents must be secured with appropriate weights!

Power distributors (three-way plugs, cable reels, couplings) must not lie directly on the ground! Power connections without a roof must be secured against the ingress of water.

17. Assembly and dismantling

A separate set-up and dismantling instruction will be sent to the participants for the arrival and set-up of the teams. No vehicles are allowed on the competition site after 9 a.m. on Saturday. Sufficient parking spaces are available.

In the interests of visitors to the event, it is expressly forbidden to dismantle the stands before the end of the award ceremony on Sunday.

Vehicles will only be admitted once the site has been officially cleared. This takes place as soon as there are no more visitors or children on the site.

No vehicles during visitor opening hours! This includes bicycles, scooters, inline skates and the like.

18. Water

There are several drinking water taps in the area of the competition area. Each team organizes its own hand washing facilities. A canister with a tap, a simple soap dispenser and disposable towels are sufficient. Rinsing stations with hot water and sinks are available for rinsing. Waste water may only be disposed of at the designated points.

19. Electricity

Each team is provided with a 230V/max. 3 kw socket, from which the teams must draw their own power (they must bring their own extension cables). The cables must be labeled with the team name

Additional power supplies are also available for a fee after registration.

The organizer is not liable for damage caused by incorrect connection of own devices to power sources. To avoid overloads, each team should only connect the bare essentials. Teams that connect more than the power grid can handle will be disconnected from the grid! This also applies to faulty electrical systems and unmarked cables.
